

1st INTERNATIONAL PARTICIPATORY HEALTH RESEARCH CONFERENCE IN SPAIN

Participatory Health Research: Challenges and Opportunities

50th Anniversary of the Faculty of Nursing in Huelva

XIII Annual Working Meeting of International Collaboration for Participatory Health Research

15-17th September 2022, Faculty of Nursing, University of Huelva, SPAIN

International Collaboration for Participatory Health Research

XIII Annual Working Meeting

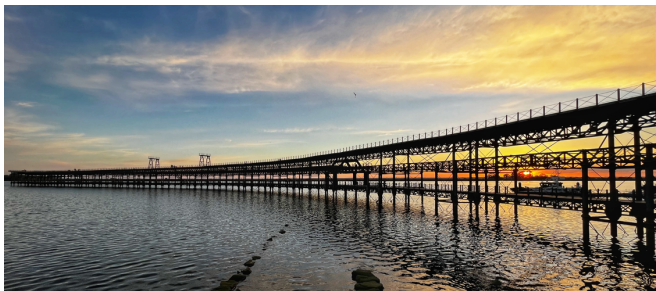

Participatory Health Research: Challenges and Opportunities

Universidad De Huelva & IREFREA Portugal

15-17th September 2022

Assembly Hall of the Faculty of Nursing Campus of El Carmen

Avda. Tres de Marzo, s/n, 21071 Huelva

The Annual Working Meeting (AWM) is a time for members to come together to work on common projects. The program begins with a **Pre-Conference** about Participatory Health Research with poster presentations. The AWM will begin with a presentation of the work being coordinated by the Steering Committee. Working Groups may be formed in advance, and should plan to meet virtually before the Annual Working Meeting. Additional Working Groups may be organized by members at the meeting who are interested in working with others on specific topics. Members will also be able to pitch their ideas and present their work in the Marketplace of Ideas (3 minutes per person). All posters will have to be digital/computer files (not hard copies).

Registration is mandatory at <https://forms.gle/mwB4gp7TwvaSEGWa7>

Pricing information for in-person participation can be found [here](#).

(Virtual participation is free.)

***Please Note:**

1. ***Sessions are scheduled to be held in-person, unless otherwise noted on the program, with the exception of working group meetings, which are scheduled at the discretion of the group lead.***
2. ***All sessions will be held in Huelva, Spain time- GMT+1:00- unless otherwise noted.***
3. ***Registered attendees will receive a program to the email address provided, that will include the zoom links for all open sessions.***

1st INTERNATIONAL PARTICIPATORY HEALTH RESEARCH CONFERENCE IN SPAIN

Participatory Health Research: Challenges and Opportunities

50th Anniversary of the Faculty of Nursing in Huelva

XIII Annual Working Meeting of International Collaboration for Participatory Health Research

15-17th September 2022, Faculty of Nursing, University of Huelva, SPAIN

Working Group Meetings Held Before Conference:

9 September 2022

14:00-15:00 **GMT+1:00** Kids in Action Working Group Meeting **(Virtual Only)**

Topic: *The New Frontiers of PHR with Children*

Facilitated by: Katitza Marinkovic Chavez & Lisa Gibbs

Please see the last page of this document for more about the session.

12 September 2022

14:00-15:00 **CET** Ethics Working Group Meeting **(Virtual Only)**

Topic: *Ethical issues in participatory health research with people living in contexts of uncertainty, stress, and trauma*

Facilitated by: Sarah Banks

Please see the last page of this document for more about the session.

<p><u>Working Group:</u> Ethics in Participatory Health Research</p>	<p><u>Facilitator Contact Information:</u> Sarah Banks- s.j.banks@durham.ac.uk Susanne Borner- s.borner@bham.ac.uk</p>
<p><u>Sessions During the AWM:</u></p> <p>Session 1 (Before AWM), 12 September 2022, 14:00-15:00, CET, Virtual</p> <ul style="list-style-type: none"> Facilitated by Sarah Banks <p>Session 2, 16 September 2022, 11:00-12:30 GMT+1:00, In-Person</p> <ul style="list-style-type: none"> Facilitated by Susan Borner 	
<p><u>Details:</u></p> <p>We will then discuss one specific topic, which may include reference to some of the other topics suggested as well: ethical issues in participatory research with people living in contexts of uncertainty, stress and trauma (e.g. food insecurity, climate anxiety, migration/displacement, war, the Covid-19 crisis). Possible questions to consider might include:</p> <ul style="list-style-type: none"> How can we tackle difficult topics in an ethically responsible way, especially when academic researchers may not be “trained” in dealing with trauma? What support is needed for both community-based and academic researchers? People living in contexts of uncertainty, stress and trauma are often categorised as “vulnerable” by research ethics committees and professional researchers. What is meant by “vulnerability”, is this term stigmatising and should we use it in PHR? Can we reclaim vulnerability as part of the human condition, applying to everyone? What are the challenges of addressing issues arising for people living in contexts of uncertainty, stress and trauma in “remote” research during Covid-19? What are the opportunities and limitations from hybrid forms of participatory research engagement? Is the ethics of care particularly relevant for PHR in contexts of uncertainty, stress and trauma? Is it helpful to understand research relationships as care relationships, with the concept of care being conceived in terms of, for example, Joan Tronto's political ethics of care? What is the interplay between theoretical approaches to ethics and research practice?

1st INTERNATIONAL PARTICIPATORY HEALTH RESEARCH CONFERENCE IN SPAIN

Participatory Health Research: Challenges and Opportunities

50th Anniversary of the Faculty of Nursing in Huelva

XIII Annual Working Meeting of International Collaboration for Participatory Health Research

15-17th September 2022, Faculty of Nursing, University of Huelva, SPAIN

Children	marinkovick@unimelb.edu.au Lisa Gibbs- lgibbs@unimelb.edu.au
----------	--

Sessions During the AWM:

In-Person Sessions, Huelva, Spain:

- **Session 1**, 16 September, 15:45-16:15, GMT +1:00
- **Session 2**, 16 September, 16:15-18:00, GMT +1:00

Virtual Sessions:

- **Session 1 (Before the AWM)**, 9 September 2022, 9:00-10:00 Timezone: GMT +10:00

Details:

- This workshop (divided into two sessions) aims to generate conversations and ideas on how to address the current gaps in PHR with children. Some topics that have been raised by our members in preparing this session include: adopting a systems approach to understand the impact of PHR with this age group, and communicating in non-verbal ways with children and young people. During the first session, we will brainstorm ideas around these and other topics. During the second session, members who wish to pursue joint ideas will agree on future steps and plan for 2022 - 2023. This workshop is open to all members of Kids in Action, the ICPHR and other attendees of the AWM.

<u>Working Group:</u> Kids in Action- Four Phases as a Structure for Participatory Health Research with Children	<u>Facilitator Contact Information:</u> Johanna Mahr-Slotawa- johannamahr@gmail.com
---	--

Sessions During the AWM:

Virtual Sessions:

- **Session 1 (Before the AWM).**

Details:

- Kids in Action member Johanna Mahr-Slotawa will introduce a Model which structures a Participatory Research (PR) with children into four phases. Each phases' objective is: 1) know children's perspectives on the research subject; 2) reformulate mutually the research problem; 3) a mutual learning process defines actions to solve the research problem, and, 4) carries out and reflects the actions. These four phases are a result of my adaptation of Greenwood et al.'s (2007) Cogenerative AR Model and its two phases to her particular research context of primary school-aged children living in Kenya.
- She suggests the four phases as structure for any PR with children. These phases helped me to start the research by prioritizing children's perspectives, to jointly redefine the research's aimed social change and to strengthen children's role as active social agents.
- During the workshop, Johanna will, first, present her Model to structure a PR with children and explain its four phases on the example of my PR in Kenya. Then, she will discuss this Model's overall usefulness and, third, apply the Model to the workshop participants' possible own PR.
- The workshop is open to all members of Kids in Action, the ICPHR and other attendees of the AWM.

<u>Working Group:</u> Social Participation in Old Age	<u>Facilitator Contact Information:</u> Margareta Ramgard- margareta.ramgard@mau.se
--	---

Sessions During the AWM:
 Virtual Sessions:

- 16 September 17:00

Details:

- Social participation in old age is an important public health issue that has received new attention, not least in the COVID pandemic, with physical distancing measures and the definition of older people as a risk group. Based on the different experiences of the participants in the working group, we want to investigate questions about social participation in old age: e.g. how have images of old age changed with regard to social participation? What effects do we notice on participatory projects with older people, and how do we meet new challenges - e.g. with regard to data collection and analysis, and regarding questions of research ethics? What conclusions can be drawn from this for participatory projects with older people?
- **This session is closed for 1 hour for writing the paper on COVID 19 pandemic and after that open 1 hour for interesting members that want to enjoy the group.**

<u>Working Group:</u> Training in PHR	<u>Facilitator Contact Information:</u> Irma Brito
--	--

Sessions During the AWM:

- Sessions will be held in-person during the AWM, working group sessions 1, 2 and 3

Details:

- The focus of the “Training in PHR” working group sessions during this AWM will be on developing the PHR ERASMUS Master’s Degree program.
