

Program for the Annual Working Meeting 2021

Due to the COVID-19 pandemic, our Annual Working Meeting is virtual. We issued a call to our members to conduct virtual workshops during the week of the conference, September 23 to October 1. Each of the workshops will be hosted by the facilitators using their own video conferencing software; some links are provided below. If you are interested in attending a workshop, and do not see the link to join, please contact the session host(s) to receive it. The hosts will be asked to write short minutes that will be collated and distributed to all who attended the workshops. We look forward to seeing you next year in person! Watch our site for details!

Please Note: All times are for the Eastern Standard Time (EST) zone (the time at the ICPHR Central Office in Baltimore, Maryland). You will need to convert to your own time zone; you can use one of the [many online tools](#). Several hosts will set the day and time or are open to changing the day and time to take into account the schedules and times zones of those who wish to participate. Please inquire with the hosts.
